Presentation

- All of this must be presented using a poster or display board, size of your choice; prepared either by hand or using ICT.
- Groups can bring physical evidence from their investigation, health and safety permitting!
- You will also give a short talk (less than 5 minutes) to describe and explain what you found out.

SCHOOL SUPPORT

- Lesson time is allowed to be used for the science fair- especially the initial planning stage
- You can get guidance and support from your Science Teacher
- At this time you can also use science equipment or chemicals (within reason)

SCIENCE FAIR DAY

- This is the judging day at our School
- Bring your display board and project into school
- During the day each group has five minutes, including questions, to present their work to the judges.
- A group of our Science Teachers will judge your project
- Awards given

SCIENCE FAIR PROJECT OUTLINE

1. Create a group
2. Find an interesting topic to invest: <https://www.sciencebuddies.org/>
